2. Stephen I loved these books I never got into them at the same time the world went into its Harry Potter Rage, but I couldn t help but give them a once over before I judged those people They were right, in the end The author gives us a parallel world where, once again, you can t help but hope it is as real as you or me Set mostly in a school that, dare I say, every person who read the books wished their parents had sent them when they were little, the story seems to captivate with mysterious spells I loved these books I never got into them at the same time the world went into its Harry Potter Rage , but I couldn t help but give them a once over before I judged those people They were right, in the end The author gives us a parallel world where, once again, you can t help but hope it is as real as you or me Set mostly in a school that, dare I say, every person who read the books wished their parents had sent them when they were little, the story seems to captivate with mysterious spells, strange people, and all around what happens next ness The main cast is made up of 3 characters who bounce information, hilarity, and small jabs of honesty and cruelty at each other What makes it interesting is the fact that these kids go to school while doing the exact things that could get them kicked out in order to progress the story I am not a Harry Potter fanatic, however I do not wear Muggle shirts or have a wand And yet, the depth of the story is very obliging to what I really wanted in a book For a small while, it made me a child again You will not regret this read

15. Wayv The world of Harry Potter is filled with things that just don’t add up, at some point this floating pile just starts degrading the creative merits and prevents any further enhancement of the reader’s world perception I’m not talking about credibility, obviously, but the painfully failing synergy between the fantastic elements The force that keeps together the discworld or the forgotten realms is simply absent here It’s apparent that the base premises struggle to support the scale to which the world of Harry Potter is filled with things that just don’t add up, at some point this floating pile just starts degrading the creative merits and prevents any further enhancement of the reader’s world perception I’m not talking about credibility, obviously, but the painfully failing synergy between the fantastic elements The force that keeps together the discworld or the forgotten realms is simply absent here It’s apparent that the base premises struggle to support the scale to which this story has grown And THEN come the legion of fans who step up and try to fix this profoundly feable work Pathetic I enjoyed the book for its worth but this phenomenon drives me up the wall I only hope these people’s new found enthusiasm for the genre spills quickly from this shallow cup into goblets of truer fire

16. AJ Griffin I think I’m finally at the age where I feel a bit weird about Harry Potter, but aren’t we all It’s hard to write a 7 book series of gigantic epics about a teenage wizard and keep your fanbase at the same age. But whatever I doubt anyone who’s read the first six books is going to ignore the last one and let some dickwad on the 6 o clock news tell them how it ends Will Harry die I dunno Is Snape really evil I doubt it Is Dumbledore really, truly dead Shit no But maybe now that all the characters are 17 or whatever, we can get some spicier read softcore porn romance scenes Can all those descriptions of Hermione as bushy haired really not have
some deeper, lustful meaning Let s not kid ourselves sorry, that was really nasty

17. emily i love all of these books, my favorite is 4 i love the character development in each book, especially how rowling pin points the emotions of a child moving from childhood into their teenage years i first read them because my students LOVED them and i wanted to use the literature in my teaching, but now i m on my second time through the series i love them this time around than the first.

22. Zarena Sita Fantastic books that are so thrilling When I was younger, I wrote this series off as a children s series, not relevant for an adult but I read them anyway and boy do I regret not having done so sooner It really is a series relatable across all generations and demographics Non stop thriller through and through Great character development for even the ancillary characters Incredibly well done.

23. Lily Walker A great children s fantasy series I read it well before the world wide Potter craze and I liked it a lot I probably would not have liked it as much post craze as I do not really like hyped books and i would rather find my own obscure reads to enjoy But I ve always loved ya children s fantasy and I liked the quirky and vivid characters, magic and fantasy elements especially the creatures Any book with dragons and unicorns will always hold a special place in my heart.

24. Reba Hoaster I loved every single Harry Potter book every time 2or3 times I read them I think it is best if you spread out reading them all instead of reading them quickly over the summer or in another few months I spread it out over 6 months because I didn t want the series to end This series is a MUST read

25. Bellamy Astro Undoubtedly, this is one of my most favorite books series It s also the one that s most influential to me I got into reading and fandom because of it After all these years, I still adore it and I ve even two Harry Potter tattoos etched indelibly on my skin to prove it.

The family moved to the nearby village Winterbourne when Rowling was four. She attended St Michael's Primary School, a school founded by abolitionist William Wilberforce and education reformer Hannah More. Her headmaster at St Michael's, Alfred Dunn, has been suggested as the inspiration for the Harry Potter headmaster Albus Dumbledore. As a child, Rowling often wrote fantasy stories, which she would usually then read to her sister. She recalls that I can still remember me telling her a story in which she fell down a rabbit hole and was fed strawberries by the rabbit family inside it. Certainly the first story I ever wrote down when I was five or six was about a rabbit called Rabbit. He got the measles and was visited by his friends, including a giant bee called Miss Bee. At the age of nine, Rowling moved to Church Cottage in the Gloucestershire village of Tutshill, close to Chepstow, Wales. When she was a young teenager, her great aunt, who Rowling said taught classics and approved of a thirst for knowledge, even of a questionable kind, gave her a very old copy of Jessica Mitford's autobiography. Hons and Rebels. Mitford became Rowling's heroine, and Rowling subsequently read all of her books. Rowling has said of her teenage years, in an interview with The New Yorker, I wasn't particularly happy. I think it's a dreadful time of life. She had a difficult homelife. Her mother was ill and she had a difficult relationship with her father. She is no longer on speaking terms with him. She attended secondary school at Wydean School and College, where her mother had worked as a technician in the science department. Rowling said of her adolescence, Hermione a bookish, know-it-all Harry Potter character is loosely based on me. She's a caricature of me when I was eleven, which I'm not particularly proud of. Steve Eddy, who taught Rowling English when she first arrived, remembers her as not exceptional but one of a group of girls who were bright, and quite good at English. Sean Harris, her best friend in the Upper Sixth owned a turquoise Ford Anglia, which she says inspired the one in her books. More about J.K Rowling. Other Books in the Series. Harry Potter. 7 books.
